Summary

Motivated and solution-oriented .NET Developer with academic experience in designing, coding, and debugging applications. Proficient in C#, ASP.NET, and SQL Server, with a passion for technology and IT. A collaborative team player who thrives in dynamic environments and is eager to apply and expand my skills in real-world projects. Dedicated to continuous learning and contributing to innovative solutions. Currently seeking a trainee position for the fall and spring terms of 2025/2026, with the goal of working my way into a full-time role within the company.

Education

.NET developer, Newton yrkeshögskolan
August 2024 - May 2026

Web development, NTI gymnasiet
Basics in HTML and css coding

Work Experience

Sales Assistant, Mekonomen
June 2020 - August 2024

- Worked as a cashier and sales assistant in a fast-paced retail environment.
- Collaborated closely with team members to ensure smooth daily operations and excellent customer service.
- Handled customer inquiries and resolved issues efficiently, often requiring quick problem-solving and adaptability.
- Processed transactions accurately and managed cash, card, and digital payments.
- Contributed to a positive and cooperative team atmosphere to meet sales goals and customer satisfaction targets.

- **.NET Development:** Proficient in developing web and desktop applications using **C#**, **.NET 8**, and **ASP.NET Core**.
- **Object-Oriented Programming (OOP):** Strong understanding of OOP principles for writing clean, maintainable, and scalable code.
- **Database Management:** Experience working with both **SQL** (SQL Server) and **NoSQL** databases, focusing on data modeling, querying, and integration.

- **Front-End Development:** Experience with **JavaScript**, **React**, **HTML**, and **CSS** for creating dynamic and responsive user interfaces.
- **Agile Methodologies:** Familiar with **Scrum** and **Kanban**, participating in sprint planning, daily stand-ups, and retrospectives during academic projects and internships.
- **Version Control:** Basic skills in Git and Github
- **Problem-Solving:** Analytical and solution-oriented, capable of identifying and resolving technical challenges efficiently.
- **Team Collaboration:** Experienced in working in cross-functional teams,
- **Continuous Learning:** Passionate about keeping up with the latest technologies, frameworks, and best practices in software development.
- **Office Skills:** Proficient in **Microsoft Office Suite**, **Teams**
